

Saturnia

Le porcellane da tavola

B A S I C

The Company

Year of Foundation: 1966

An industry drawing its lifeblood by an important historical roots.

The Saturnia factory, Italian Porcelain industry, is specialized in the manufacture of products for **catering** and **household use**, and it represents one of the main European realities in that sector; it has a perfect industrial mosaic which allows it to diversify production, adapting itself to the market needs, and occupying relevant space in the **target market** area. The Success is grew over time, thanks to the enthusiasm and the management team's attitude but also thanks to unceasing **technological innovations** and untiring attention dedicated to the technical and aesthetic aspects of the products. Years of close and fruitful cooperation with the main italian and international trade groups, through a complete **range of products**, a timely service, a careful programming, and a continuous **renewal of shapes and decorations**, they are only a part of ingredients that make up our powerful recipe for success that renews the strong relationship with our customers over time.

The Saturnia collections are designed to meet table and kitchen needs both in a modern and traditional style.

Saturnia products make a pleasant note on your table set up, meanwhile thanks to the plating, they are in perfect harmony with food.

In addition to individual lines in collection Saturnia suggest a new way to lay the table using appropriate mix of our products. A mix of shapes using particular combinations they give life to a creative and original table setting.

Saturnia

Le porcellane da tavola

ORIGINS AND CULTURE OF MADE IN ITALY

The made in Italy is not just a brand to fix on a product, it's an icon reserved and granted to our companies. To be Italian, it means first of all to share a set of values that must be felt as a constant reference. Features such as quality, as an innovative design and not least the reliability and fairness on the market are some of the most important hallmarks of the true Made in Italy. Upholding these values is a commitment and a pleasure too, and for over fifty years, Saturnia Porcellane has made it a point of pride. Having a vision that looks towards the future is also of crucial importance, however, so is an awareness of a cultural heritage whose roots are grounded in those historical and artistic traditions that have always brought great prestige to our Country.

Let's put it on the table

Creativity

With the Creativity project Saturnia suggest a new system to lay table realized through an appropriate Mix of specific collections.

Collections for multiple matching proposals

There are a lot of **collections** selected by Saturnia that represent the backbone of this project. The mix, composed by articles of different lines, allows the business operator to create an original **mise en place**, of motion, versatile, without losing the balance on the Table setting. Just to be clear with an example: those who already use the **Tokio** collection can integrate the assortment with the **Siviglia** collection; in this way, it will have the opportunity to lay the table with the **Tokio** and **Siviglia** combination and create an innovative set-up solution. Saturnia offers many variations in the format; above all, it wants to highlight the philosophy and functionality of the project inserted in a range of products suitable for a perfect mise en place.

Creativity: Shape's contrast for original matching.

Creativity: Shape's contrast for original matching.
